

Food supplement with **glutamine**

4Life Transfer Factor^{®1}

4LIFE TRANSFER FACTOR **GLUTAMINE PRIME™**

(1) Made from colostrum

- Do you focus on keeping your muscle mass?
- Do you need to boost the antioxidant mechanisms of your body?

When we exercise, our muscle fibers suffer and a certain amount of protein –which is valuable to our muscles– gets destroyed.

L-glutamine and arginine are two amino acids with muscle-maintenance effects.

Our body generates lipoic acid and N-acetylcysteine, which create energy and have antioxidant mechanisms.

 **120**
CAPSULES

 **78,96 g**
NET WEIGHT

TAKE FOUR (4) CAPSULES DAILY WITH 240 ML OF WATER. FOR BEST RESULTS, TAKE 2 CAPSULES IN THE MORNING AND 2 CAPSULES IN THE EVENING.
