

# Fibro AMJ™

## Day-Time Formula

MUSCLES • JOINTS

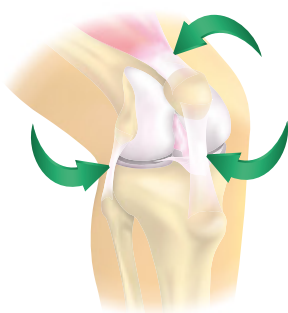

### Food supplement with Magnesium and Boswellia for maintaining healthy joints, bones and muscles.

The main functions of the locomotor system are to allow movement, control posture and protect the organs.

#### Which factors affect its good condition?

Age, intense exercise or demanding physical work, excess weight and an unbalanced diet can:

- Weaken
- Wear away
- Produce inflammation

Taking good care of your joints is important for a good quality of life: doing normal daily activities, walking, being able to travel, do exercise, etc.
