

## Food supplement with minerals and plant extracts that contribute to men's wellness.

### Did you know that...?

The prostate is a vital gland of the male endocrine and reproductive system. One of its main functions is to produce the fluid that carries spermatozoa.

Over the years it frequently undergoes changes (enlargement) which puts pressure on the urethra, leading to urinary problems.

### What does Malepro do?

Zinc and selenium help protect cells against **oxidative stress** and contribute to the normal functioning of the **immune system**.

Zinc helps keep **fertility and reproduction levels** normal and helps maintain normal levels of **testosterone**.

Selenium helps keep spermatogenesis normal.

Stinging nettle root extract helps the prostate function **normally**.

**Saw palmetto berry extract** (*Serenoa repens*) helps the prostate function normally and aids normal reproductive function.
