CONCENTRATION AND ALERTNESS

ENERGY GO STIX™ BLACKBERRY

- Do you need an “extra” dose of energy at certain times (work meetings, while travelling, exams)?
- Would you like to greet the day with greater physical and mental equilibrium?
- With Energy Go Stix you have guaranteed energy to handle even the most intense days!

To perform well, our body has to be in good physical and mental condition.

In order to have sufficient energy, our body must know how to “metabolise” the nutrients that give us energy (macronutrients - carbohydrates, fats and proteins) correctly.

Our state of alertness and concentration are crucial for organisation, making decisions or problem-solving at work and when studying.

Energy Go Stix Tropical is a drink with ingredients that boost our physical and mental energy.

What does ENERGY GO STIX BLACKBERRY offers

- Chromium aids the **normal metabolism of macronutrients** and helps maintain normal levels of **glucose in the blood.**
- Caffeine helps to improve **concentration** and increase **alertness.**

* Glucose is an important source of energy for most body cells, including those in the brain.
