

## TERMS AND CONDITIONS

### Updated January 1, 2020

Rapid Rewards is a program designed to quickly reward you. Those who meet the requirements will get commissions on purchases of products made by Preferred Customers they personally enrol. The best of all is that your Rapid Rewards will be credited to your 4Life account in the following days.

- In order to receive your Rapid Rewards, it is mandatory to have sent all the documentation as a new Associate.
- In order for distributors to receive a Rapid Reward, they need to qualify for a distributor rank (with at least 100 PV) in the ongoing month.
- Those who meet the requirements will get a 25% commission for the first (LP) order of each new Preferred Customer whom they personally enrol.
- By complying with the requirements, they will also get a 12% commission for the first LP order of each new Preferred Customer enrolled in their second level, as well as a 5% commission for the first LP order of each new Preferred Customer enrolled in their third level.
- If a distributor has not yet reached 100 PV in the ongoing month, 4Life shall retain the Rapid Reward and pay it to the distributor's 4Life account after reaching 100 PV, or it will be paid with the generation bonus.
- Qualify as Diamond or a higher rank, and you will receive a 2% commission from the fourth generation with the generation bonus. The total 2% commission of the fourth generation will be paid to the first Diamond —or higher rank— that meets the requirements, and it shall not be divided —as for the Infinity Bonus—.
- In case of not having activated Rapid Rewards, these bonuses will be paid together with the generation bonus.
