

4Life

Food supplement with 4Life Transfer Factor™ from cow colostrum and egg yolk

Good Manufacturing Practice
4Life production sites have
obtained the certification from
NSF® International.

Formula design
with specific objectives
tailored to each market.

Raw materials
Stringent care in the
sourcing and origin of its
raw materials.

Extraction
effective extraction processes
to obtain the smallest size of
active molecules possible.

4Life Tri-Factor™ Formula
From cow colostrum and
chicken egg yolk.

4LIFE TRANSFER FACTOR **TRI-FACTOR** FORMULA

Our formulas are the result of the highest quality research and commitment.

RATING OF INGREDIENTS

Leading ingredients, backed by internationally approved research, are selected and studied.

RAW MATERIALS

4Life takes stringent care in the sourcing and origin of its raw materials to ensure it obtains the choicest ingredients:

- It observes strict criteria in the selection of its raw materials (ingredients such as bovine colostrum and eggs are of the highest quality).
- It carries out assessments and audits of its suppliers.

EXTRACTION

4Life selects the most effective extraction processes for its ingredients (ultrafiltration, nanofiltration) to obtain the smallest size of active molecules possible, so it can include the largest possible amount in each capsule.

4Life has patents for the extraction of transfer factors from bovine colostrum and yolk from hens' eggs.

FORMULA DESIGN

The final formula is designed with specific objectives tailored to each market.

Pilot tests involving physical and sensory assessments are carried out for each formula.

FACILITIES AND PROCESSES

We use state of the art manufacturing facilities. The 4Life production sites have obtained Good Manufacturing Practice (GMP) certification from NSF[®] International. This certification is proof that 4Life uses the right methods, equipment and quality control to ensure it produces the highest quality dietary supplements. 4Life carries out controls on every aspect of the process, from the selection of raw materials to packaging, thus guaranteeing products of the highest quality.

 **60**
CAPSULES

 **25,92 g**
NET WEIGHT

TAKE TWO (2) CAPSULES DAILY
WITH 240 ML (8 OZ) OF FLUID

NUTRITIONAL INFORMATION

Daily dose: two (2) capsules

Daily doses per container: 30
